

## PendaForm awarded GM's 2015 Supplier Quality Excellence Award

November 17, 2016 – PendaForm has recently been awarded the 2015 Supplier Quality Excellence Award in a presentation conducted by Mr. Cedric Holman, GM Supplier Quality & Development held at the PendaForm plant located in Portage, Wisconsin.

*Mike Johnson (center), PendaForm's VP of US Operations, accepts the award from Cedric Holman, GM Supplier Quality & Development.*

PendaForm qualified for this prestigious award for achieving criteria such as zero late deliveries, plant disruptions, or field actions, zero non-conformances in Engineering, Quality, and production were issued in the year long period, among other determining factors.

PendaForm is a U.S. based global manufacturer of thermoformed solutions with a heritage extending over four decades. The automotive industry leader in providing highly engineered and top-quality bed protection and storage solutions to O.E. customers, supported by a focus on delivering excellence throughout the industry channel. Our patented thermoforming techniques and designs ensure dimensional stability, tight tolerances, skid resistant surfacing, extreme impact resistance, and limited Lifetime Warranty, which serves our customers with the tough, aesthetic solutions our markets demand.

*PendaForm was one of 347 Supplier sites receiving this prestigious honor in the US and Canada for 2015 with 1440 total Global awards given.*
